**Subject:** FW: Parcel E Phase 2, Hunters Point - Field Change Request

Hi Wayne,

Navy is making the changes, FYI.

**Subject:** RE: Parcel E Phase 2, Hunters Point - Field Change Request

Hi Karen,

Thank you for providing your comments on the subject FCR for Parcel E Phase 2. I wanted to reach out personally ahead of sending the response to comments to discuss our proposed path forward.

In light of your Comments #1.b and #2.b, I agree that the FCR should be updated to include Cobalt-60 in the analyte list for import and WS#18 should include the necessary updates accordingly. Additionally, we have included language to clarify the 10% Strontium analysis under Comment #2a and clarified the intent of the statement on import fill under Comment #3.

The only comment where no revision was made is #1a. Per Navy QAO guidance Waste Characterization Sampling is not included in the SAP, rather details on waste management are to be submitted under a separate document, ie. A Waste Management Plan, to be attached the Remedial Action Work Plan. No changes were made to the SAP. The FCR will serve as the update and agreement between the Navy and Contractor on the analytes to be sampled for waste characterization.

Please let me know if you would like to discuss any of these prior to close of business today. I am free all evening until 5:30pm.

Very Respectfully,

Liz Roddy

**Subject:** Parcel E Phase 2, Hunters Point - Field Change Request

Dear BCT,

The attached Field Change Request (FCR) for Parcel E Phase 2 is provided for your situational awareness. The approved FCR clarifies the radionuclides of concern (ROCs) for waste characterization and post excavation confirmation soil samples to align with the Record of Decision for Parcel E (ROD; Navy, 2013) and Final Historical Radiological Assessment (HRA; NAVSEA, 2004) suite of ROCs for Site IR-03. Replacement Worksheets #15.2 (confirmation sampling), #15.11, and #17.1 have been provided to be used in conjunction with the SAP.

If any questions please let me know.

Very Respectfully,

Liz Roddy
